MAINTENANCE AND REPAIRS:

It will primarily be your responsibility to cooperate with our suppliers when your rental vehicle is due for a service or maintenance. This is to ensure that the quality and safety of your vehicle is not compromised during your rental period. Please advise us when your car is due for a service, as we will not be aware of its exact kilometer reading while the car is in your possession. We will make suitable arrangements to collect the vehicle and a replacement vehicle delivered to you. The replacement vehicle will be a similar vehicle but not necessarily the same make and model. Please ensure that the vehicle is handed back with the same level of fuel as when you received it, at time of service as the supplier will charge to have the vehicle re-fueled to the level as stated and charge a percentage on top of this for doing same.

Should you have any questions or need any assistance please do not hesitate to contact us.

We look forward to assisting you.
